

# HIS AND HERS

WE ASKED LAINGS TO CREATE A MODERN HIS AND HERS BATHROOM WHERE SPACE IS OF THE ESSENCE AND BATHING IS A LUXURY

## THE SOLUTION

The aim was to create a practical, modern look for the 'His and Hers' bathroom, making space and comfort priority. The design includes a large shower area, freestanding bath and a double sink area. Modern dual-purpose fittings and textures were used, that work well when both bathing and showering.

With a spacious master en suite, a double shower was installed, where the clients can both shower in comfort. The Hansgrohe Starck shower system includes a hand-shower as well as a fixed head for a drench effect. A V&A freestanding bath made from volcanic limestone was chosen, as well as a 23" Tile Vision TV built inside a bespoke glass mosaic bulkhead for the clients to enjoy their favourite soaps!

A monochromatic colour scheme was chosen to theme the tiles. The popular Villeroy & Boch Bianco Nero tiles give the room depth, while different materials including glass mosaics, large white tiles, decor tiles and large black floor tiles add variety.

The design also includes WC privacy – the Villeroy & Boch Subway wall-hung pan has been fitted to full height. Also incorporated into the design is Keuco's Royal modular range – two recessed, mirrored cabinets for extra storage.

## THE BUDGET £28,000

### Cost breakdown

Bath	£2245
Double basin area	£2600
Mirrored cabinet storage (above basin area)	£2700
WC pan, seat and frame	£855
